

Virtual Display Packages

Get the maximum from your return on investment, as an online virtual exhibitor.

Sample Show Virtual site

Virtual Exhibit Solutions by Unique

Interactive 360-degree experience.

Attendees will navigate the space and interact with your content in strategic locations.

Virtual Exhibits are immersive, experiential, and typically self-guided. Many show organizers have pivoted to virtual shows as an alternative to live shows during the COVID-19 pandemic. Virtual exhibits allow you to connect with potential clients in a virtual space, often in real-time, and share product literature, videos, surveys, chat, social media links, and presentations.

What do you get with a Virtual exhibit package from Unique?
