

## Online Exhibit and Event Management

New scalable, modular, web-based exhibit and event applications designed for growth.

### Enterprise

The application allows for client data stored from exhibit and graphics properties to marketing support materials all in real time inventory. This powerful web-based event application offers centralized management of tradeshow assets and streamlined work process coupled with client interaction anywhere, anytime, with unlimited users, all in a secure environment.

The screenshot shows a web browser window displaying the APEX Software website. The browser's address bar shows the URL <http://www.exhibitforce.com/CLIENTS/welcome.asp>. The website header includes the APEX Software logo and a navigation menu with links for Events, Inventory, Event Tools, Resources, FAQ, Rentals, Online Store, and Logout. Below the navigation is a welcome message: "Welcome to Online Exhibit Manager" dated Thursday, March 04, 2004. The main content area features a grid of ten service links, each with an icon and a brief description:

## FULFILLMENT

Fulfillment pushes inventory from our warehouse into the field - on demand.

### Real Time Inventory

### Corporate Branding

### Searchable Database

## INVENTORY

Track stock levels and availability with an up-to-the-second physical asset management system. Instantly view and print inventory catalogs or download lists to Excel. Organize the system to best fit your strategy and search for items based on dates, shows, or item type. Link setup instructions, CAD models, electrical grids, crating details, and other pertinent supply data.
